## DESCRIPTION

Are you tired of using the same old hunting lures that don't seem to work as well as you'd like? If so, it's time to try **TURBO CORN**.

This revolutionary hunting lure is specifically designed to attract a wide range of game animals, including deer, elk, bear, and more. Made with a special blend of ingredients and impregnated with corn, **TURBO CORN** is highly attractive to game animals and is proven to bring them in closer for a better shot.

This product includes black kaolin clay is a type of clay that is naturally occurring and is found in many parts of the world. It is known for its distinctive color and aroma, which may be appealing to animals. The scent and smell is also impregnated into corn it self not only the clay shelf. It is also weather-resistant, so it can be used in a variety of conditions. Proven effectiveness: made over 100 videos about product efficiency in the wildlife.

One of the things that sets **TURBO CORN** apart from other hunting lures is its versatility. Whether you are hunting in a dense forest or an open field, this lure is effective in a variety of hunting situations. Plus, its long-lasting formula means that you won't have to constantly reapply it, we even recommend using it with other feeds for economy.

**Composition:** Corn, salt, sugar, apple aroma, water, aroma of roasted fruits (marjoram, corn, hemp).

## DESCRIPTION

Revolutionize the way you are hunting with **TURBO LIQUID**. If you are looking for a unique and effective hunting attractant, consider giving **TURBO LIQUID** a try. This liquid hunting attractant is specifically designed to attract a wide range of game animals, including deer, elk, bear, and more.

Our new product is made with new technology and is revolutionary for hunting. Unlike other hunting attractants that rely on artificial or synthetic scents, **TURBO LIQUID** is made with a proprietary blend of natural ingredients that are irresistible to game animals. Simply apply a small amount of **TURBO LIQUID** to your hunting place and let the powerful scent do the rest.

The scent is unique which we can't define it contains sour and sweet taste in it.

We are proud to offer a product that has been rigorously tested to ensure the highest level of quality and reliability. During the development process, we subjected our product to a wide range of tests to ensure that it meets the highest standards for performance and durability. The scent is amazingly intense so we are proud of our product and we are confident that our customers will be satisfied with the results of these tests, and we stand behind our product. You can't find anything similar to this product. The scent is unique which we can't define it contains sour and sweet taste in it. Proven effectiveness: made over 100 videos about product efficiency in the wildlife.

In addition to its effectiveness at attracting game, **TURBO LIQUID** has a number of other benefits. It is easy to apply and long-lasting, so you won't have to constantly reapply it. It is also safe and environmentally friendly, making it a responsible choice for hunters who care about the outdoors.

**Composition:** water, salt, sugar, baked (linseed, jerusalem artichoke, corn) smell.

# TURBO POWDER 3KG

## DESCRIPTION

The powerful and efficient attractant **TURBO POWDER** is made to draw a variety of game animals. We are aware that you haven't encountered anything like our goods before. This attractant, which has a consistency similar to flour, is simple to use, can be applied to a range of surfaces, and it may be utilized in a variety of hunting scenarios.

It offers a level of performance and usefulness that simply cannot be found in any other product on the market because it is made using a particular combination of components and impregnating technology. Game animals are extremely attracted to **TURBO POWDER**, which has been shown to draw them in closer and keep them in position for a better shot. No matter if you're going after bears, elk, deer, or other game animals, **TURBO POWDER** is an essential tool in your hunting kit.

The capacity of **TURBO POWDER** to sustain its potency for a lengthy period of time is one of its distinguishing qualities. This means that both short-term and long-term hunting excursions can benefit from using it. This sets it apart from other attractants that might not last as long and might quickly lose their potency. Effectiveness demonstrated in more than 100 videos about product performance in animals.

Any serious hunter needs **TURBO POWDER**, which is both simple to apply and very effective. Try it now and judge for yourself the difference.

**Composition:** corn, sugar, the smell of baked (linseed, jerusalem artichoke, corn).

# MAGICAL FRIABLE FEED LURE, 3 KG.

PRODUCT  
CODE 0902

## DESCRIPTION

- The intensity of this scent is maximally studied. It is a scent which has no analogues because we produce it ourselves. A special technology was developed to make it.
- The smell is balanced, which is neither too weak nor too strong.
- This lure gradually melts, but the smell does not go away. After the rain, the smell still persists.

### Usage:

- Can be used alone or mixed with other feeds.
- Can be used in all feeders, even automatic ones.

### Which animals does this lure attract?

This lure attracts most animals. Especially attracts boars, deers and roe-deers. It has not been observed that this lure would scare any animals.

**Composition:** corn kernels, glucose syrup, sugar, salt, pine needles, rowan berries, jerusalem artichokes.

# BLACK LICKABLE CORN WITH CORN KERNELS (SALTY) 3KG.

PRODUCT  
CODE 1098

## DESCRIPTION

### Advantages:

- The product is made from high quality feed corn and is treated with heat to make it safe for use. It is also designed to be long lasting and difficult to ripen, so that it can continue to attract animals over a period of time. Additionally, the lure is now made with kaolinitic clay, which helps it to attach well to the stump or non-viable tree trunk. This allows the lure to remain in place and continue to attract animals even after it has been licked or dissolved.
- About kaolinitic clay - it is believed to help with digestion, detoxification, and skin health, among other things.
- Long lasting, hard to rip it.

This product keeps most animals in one place. Especially boars, mooses, deers, mouflons.

**Composition:** corn kernels, glucose syrup, kaolinitic clay, salt.

Additions:

- Technological additive: natural kaolinitic clay (E559)

VISCOUS LUBRICATED LURE

PRODUCT  
CODE 0299

TEMPTATION. MORE PINE RESIN, 500 G./1 KG.

## DESCRIPTION

Advantages:

- This intense-smelling lure is designed to attract boars from afar.
- Made on the basis of resin. The smell of resin is encoded in the genetics of boars. Boars are genetically aware of the disinfecting effect of resin on fur, wound healing, scent burning, and mosquito repellent.

### Usage:

Apply on a non-viable tree trunk, stump at the point of attracting.

### Which animals does this lure attract?

This lure most attracts boars.

**Composition:** resin base

# REPELLENT FEAR OF BOAR, 500 ML.

PRODUCT  
CODE 0145

## DESCRIPTION

### Advantages:

- The fear of a boar is a wolf's scent which causes panic in boars and other wild animals and affects wild animals instinctively.
- It is a unique remedy that animals are not addicted to because this repellent acts on animals instinctively.
- Fear of Boar can protect crops from up to 85% of the damage made by wild animals.

**Usage:** more than 3 km. perimeter is required only with 500 ml. preparation (2-3 sprays every 70 meters).

### Environmental effects:

- The product is not harmful to water tanks and can be used in protected water areas.
- The product is harmless to aquatic flora, fauna and pets.
- The product is not toxic. It is not a self-igniting or explosive substance.
- Fear of Boar is a 700% biodegradable tool.

## DESCRIPTION

The ingredients in the product are; glucose syrup, sugar, apple flavor, natural glucose is the most important carbohydrate in animal organisms. Glucose works in animals' bodies as an energy source. Carbohydrates are also very important for the animal's biological processes. You can attach the stone to a place within reach of the animal, at a height of at least 20 cm from the ground to a feeding tray, a washer, a stump or even on top of a rock of salt.

# HONEY FLAVORING STONE, GOLDEN YELLOW

PRODUCT  
CODE 0732

## DESCRIPTION

A lick stone made of honey is the perfect solution to attract wildlife to your feeding area. Its hard composition makes it long-lasting and hard to bite. Thanks to heat treatment, it is 100% safe to use.

When it dissolves, the stone is absorbed into the ground, trough, stump or tree trunk and when it is finished, the wild animals return to that place and lick the stump/tree trunk. This lick stone remains effective in all weather conditions, including rain and snow.

Our product is handmade from natural ingredients and does not contain synthetic additives. It contains natural vitamins and minerals that provide additional nutrition for game animals.

This product attracts most animals, especially bears, wild boars, deer and elk, but also roe deer.

## BEST TO USE

### MIX WITH OTHER FEED PRODUCTS.

Feel free to mix it with your selected feed product. This will not only make the product more fragrant, but also enrich the food with minerals.

### SCOLD IT NEAR OUR LICKABLE CORN WITH CORN KERNELS.

Scolding impregnated "Turbo corn" near "Lickable Corn" is an amazing combination for attracting and keeping wild animals in one place.

### SCOLD ON THE STUMP OR TREE.

This product can be used in contact with all type natural products like: hay, grass, tree and stumps.

### USE GLOVES.

We always recommend to wear gloves when using our lures, as every contact with human skin can affect the reaction of animals to the scent.

### SCOLD IN LINE

Scold the "Turbo corn" in line to attract wild animals to the feeder place from new zones.

### MIX WITH TURBO SCENT LIQUID

To get even better results, you can mix this product with our "Turbo liquid".

### ENVIRONMENTALLY-SAFE

An absolutely natural product containing mineral substances. Environmentally friendly, making it a responsible choice for hunters who care about the nature.

### SCOLD INTO THE FEEDER

Feel free to scold this in your own feeder.
